

Our Work

# Hotel and Leisure

## Our Clients

## Introduction

Welcome to the latest edition of our project portfolio showcasing some of our most recent work within the Hospitality and Leisure sectors.

Each carpet you will see within this publication has been manufactured in the UK by our dedicated team of experts using the highest quality materials and processes.

Working closely with interior designers, architects and end users our highly talented team of in-house carpet designers strive to create the perfect design to meet the exacting requirements of our clients. Whether this be a clearly defined brief or working with our extensive archive of carpet designs recoloured to suit your particular scheme.

We specialise in manufacturing high quality wool-rich carpets using some of the latest production techniques available. From guest-rooms to high traffic public spaces each of our standard specifications has been engineered to offer value for money and outstanding performance.

If you would like to find out more about any of the projects showcased here, or to discuss your next project, please contact the sales office and we would be delighted to put you in touch with your local business manager.

## Our Story

Founded in 1968, Newhey Carpets is a leading British manufacturer of contract carpets for the hotel, leisure and entertainment sectors. Applying 50 years of manufacturing and technical excellence, the company constantly embraces the very latest production techniques in order to deliver reliable, high performance products to its global customer base.

Driven by innovation, Newhey uses a mix of yarns and colours to develop unique solutions for commercial interior designers, all backed up by market leading after sales advice and support. The company is also at the forefront of the carpet sector in terms of reducing its carbon footprint through the development of low embodied energy. Newhey's advanced backing system utilises a unique solvent free application process to apply the revolutionary evobac, which is produced from 100% recycled plastic bottles.
